

## **body bistro chooses singapore as first port of entry in asia**

Beverly Hills (California) based Body Bistro is launching its new ayurvedic cosmetic line in Asia. The Whatever Concept Store in Singapore was chosen as the first step in Asia.

Prepared with Himalayan herbal extracts and blessed by Buddhist and Hindu chants and meditation, Body Bistro's ayurvedic skin care line features a bamboo and wine exfoliating body buff, a tapioca and soy milk bath infusion, and a grapefruit and gotu kola stimulating shower gel.

Products combines ayurvedic recipes, bio-advanced dermatological technology and the healing power of Vastu Shastra (Indian Feng Shui) in a 100% Vegan certified formulation. All products adhere to a bio-advanced, technologically effective skin care regimen, containing collagen-enhancing and anti-oxidant ingredients.
